## STORY OF *joy*

I was so thrilled when my supervisors agreed to collect donations for this cause, and so overwhelmed by the positive response of my coworkers. We made and then exceeded our budget. It was so much fun to shop for the little one, and we were so excited to find the perfect gift for the parents as well. Dropping the hamper off and seeing the excitement in the child's eyes as she spied the wrapped gifts coming in, with her name all over them, was almost too much. She introduced me to her cat upon learning how I loved them as a thank you, and then eagerly got to work arranging everything under the tree. I got a beautiful heartfelt email from the mother in the days following, and pictures of her beautiful little girl tearing into her gifts. I can't wait to do this again next year

## STORY OF *hope*

Christmas is a hard time of year. I am speechless at the generosity of our sponsor. They went above and beyond my expectations. I will be forever grateful to them. Not only did they care about my four children but they cared about me. This brings tears of joy to my eyes. There were gifts under the tree and plenty of food to eat. It lifted a huge stress off my shoulders and lifted my spirit up just knowing that someone cares.
